EXCEL'S APPRENTICESHIP PROGRAM**

Recognized by the Department of Labor's Bureau of Apprenticeship and Training, Excel in partnership with the Independent Electrical Contractors (IEC) offers a four-year apprenticeship program where students receive on-the-job training during work hours and classroom training one night a week. Excel pays tuition costs providing the student maintains a passing grade. What a great opportunity to learn a highly skilled trade and put yourself in a position of power!

WHY THE CONSTRUCTION INDUSTRY?

The southeast, and particularly the Atlanta area, continues to grow with more and more new construction projected for the future. In the construction industry there is a very strong demand for technically trained, skilled and crafted people. This strong demand allows for employees to enter a job market that's more secure than many, demanding very good pay, benefits and training.

WHY ELECTRICAL CONSTRUCTION?

Electrical Construction is typically the highest paying of the various construction trades. A higher degree of training is necessary in today's Electrical Construction Industry. It takes highly motivated individuals to make the commitment necessary to complete this training. Highly motivated, well trained employees are able to earn higher wages.

WHY EXCEL ELECTRICAL TECHNOLOGIES, INC.?

Excel Electrical Technologies, Inc. is one of the largest and most respected electrical contracting companies in the southeast. With approximately 300 employees Excel will put in place \$60 million in electrical work in 2007, delivering unmatched quality and professionalism.

For ambitious employees with leadership and management potential, ample career advancement opportunities are available in the Electrical Construction Industry. **98% of Excel's salaried project management, project supervision, engineering & estimating personnel began as apprentice electricians.** The average annual salary of these employees exceeds **\$80,000.**

At Excel, all of our employees are appreciated, acknowledged and rewarded for their long term loyalty. Together with all of our employees, we truly EXCEL in our industry!
